To Alerta Nacional,

The PET Internet Referral Unit is a specialist unit working under the Danish National Police. Our purpose is to identify, investigate and disrupt terrorist propaganda and other extremist content on social media and other platforms on the internet.

In December 2018, a young Danish woman and a young Norwegian woman were brutally murdered in Morocco, and a video showing the beheading of one of the two victims was posted on social media and we have detected the video on your servers. The murders pledged their allegiance to the terrorist organization Islamic State and the video is the type of terror propaganda that is our mission to disrupt and the content may possibly constitute a violation of the Danish Criminal Code.
